Dear Sir:

**RESPONSE TO REQUIREMENT FOR RESTRICTION**

This responds to the Requirement for Restriction mailed December 8, 2005.

The Examiner has required restriction to one of the following inventions under 35 U.S.C.

§ 121.

- I. Claims 1-18, directed to a method and computer-readable medium for modeling wireless interference among wireless links between a plurality of wireless nodes in a wireless network, classified in class 455, subclass 423.
- II. Claims 19-21, directed to a computer-readable medium storing a conflict graph data structure, classified in class 455, subclass 446.

III. Claims 22-81, directed to a method and computer-readable medium for computing an upper and lower bound on throughput that a wireless network can support using a protocol interference or physical interference model comprising solving a linear program, classified in class 370, subclass 233.

IV. Claims 82-84, directed to a method and computer-readable medium for improving throughput in a wireless network, comprising using edge and weight information to determine routing paths, classified in class 370, subclass 445.

V. Claims 85-89, directed to a method and computer-readable medium for computing a throughput that a wireless network can support comprising solving a mixed-integer program, classified in class 370, subclass 234.

In response, Applicant hereby elects Group I, claims 1-18, for prosecution in the present application. Applicant expressly reserves the right to file the non-elected claims in one or more divisional applications.

The application is now ready for examination on the merits. If there are questions regarding this response, please contact Applicants' undersigned Attorney.

Dated: January 3, 2006

Respectfully submitted,

By William R. McClellan
